Advertising (website)

BUREAU/ BART

We help you to develop the right activations and branded content campaigns that best reach your customer. Our focus is to create campaigns that resonate with your target audience, rather than traditional advertising. We do this with smart, tailor-made campaigns that reinforce your brand, that are always relevant and targeted.

To achieve the desired results, we advise you on how best to use the various Barts Boekje channels (website, social media, Substack, e-guides, etc.), with a strategy tailored to your performance goals. We make sure the campaigns exactly match your goals by fine-tuning the KPIs beforehand.

At the end of the campaign, you get a detailed report so you can see exactly how the campaign performed. Moreover, we can extend campaigns with a 'paid budget' to increase the impact, both on the Barts Boekje channels and beyond.

[More about Bureau Bart](#)

SOCIAL ADS

Social ads allow you to boost both existing and new commercial social media campaigns, both on our social channels and beyond. This is ideal for reaching specific target groups, for various objectives, or for dark advertising - where the ad is not visible in the feed, but targeted to a precisely defined audience.

Our campaigns deliver excellent results: the average cost per click at Barts Boekje via Bureau Bart is just EUR 0.15, compared to EUR 0.43 in the travel industry. In addition, we achieve a click-through rate of 5%, which is significantly higher than the food and hospitality industry average of 2.9%. This makes us a cost-effective choice for your social advertising strategy.
